Miles Apart Connected at the Heart

The joy of receiving letters from their pen pals, shown on the faces of these children in Africa and India, is the same joy shown on the faces of these American students. As Sister Schools, you have shared your lives and your love with each other. Opportunity Education is grateful for your participation in our Sister School Program. As one student said, "Our lessons make our minds smarter, healthy eating and exercise makes our bodies stronger, but I never educated my heart before, until now...."

Sister Schools, thank you for educating the hearts of your students this year. Partner Schools, please continue to write letters to your pen pals. It will be a special treat to have letters waiting for them at school when they begin their new school terms. **We look forward to continuing with you to make a difference in the world, one letter at a time.**
