

Learning Skills

GROUP

INVESTIGATE

Take in facts and ideas

SKILLS

Establish Meaning

Use prior knowledge and new tools to understand what is happening or being said.

Ask Questions

Compose questions based on observations, readings, or problems.

Investigate

Use multiple methods to inquire, gather information, and establish context.

GROUP

ANALYZE

Create new ideas and solutions

SKILLS

Interpret

Use sources, data, or computations to extract meaning.

Identify Patterns

Find similarities and draw connections among events, ideas, and representations.

Be Creative

Create solutions, new ideas, and new methods.

GROUP

REASON

Think critically and make arguments

SKILLS

Assess Arguments

Evaluate arguments, points of view, and positions with attention to evidence and reasoning.

Take a Position

Develop your own position. Support it with appropriate evidence and reasons and defend it from the criticism of others.

GROUP

COMMUNICATE

Communicate ideas to others

SKILLS

Collaborate

Participate in group work, and give and receive peer feedback.

Compose

Design and produce works that connect ideas and demonstrate knowledge. Revise work to make it better.

Share

Connect with the audience and communicate work clearly.

GROUP

LEARN WHO YOU ARE

Be aware, accountable, and self-directed

SKILLS

Reflect

Recognize strengths and shortcomings. Review and revise assignments.
