

Learning Skills

Quest Forward Learning

INVESTIGATE

Take in facts and ideas

- ◆ **Establish Meaning**
Use prior knowledge and new tools to understand what is happening or being said.
- ◆ **Ask Questions**
Compose questions based on observations, readings, or problems.
- ◆ **Investigate**
Use multiple methods to inquire, gather information, and establish context.

ANALYZE

Create new ideas and solutions

- ◆ **Interpret**
Use sources, data, or computations to extract meaning.
- ◆ **Identify Patterns**
Find similarities and draw connections among events, ideas, and representations.
- ◆ **Be Creative**
Create solutions, new ideas, and new methods.

REASON

Think critically and make arguments

- ◆ **Assess Arguments**
Evaluate arguments, points of view, and positions with attention to evidence and reasoning.
- ◆ **Take a Position**
Develop your own position. Support it with appropriate evidence and reasons and defend it from the criticism of others.

COMMUNICATE

Communicate ideas to others

- ◆ **Collaborate**
Participate in group work, and give and receive peer feedback.
- ◆ **Compose**
Design and produce works that connect ideas and demonstrate knowledge. Revise work to make it better.
- ◆ **Share**
Connect with the audience and communicate work clearly.

LEARN WHO YOU ARE

Be aware, accountable, and self-directed

- ◆ **Reflect**
Recognize strengths and shortcomings. Review and revise assignments.
