

Active Learning for Student Engagement

LEVEL 1

Fundamentals 🍌

Gain a deep understanding of the strategies that support active and engaging learning experiences, and make a specific, actionable plan to implement them in your classroom.

LEVEL 2

Design Your Space 🍌

Learn how to design a learning space that maximizes student engagement and plan your own design for an intentional learning space.

Differentiation 🍌🍌

Investigate what differentiation really looks like and how it can benefit your students, and walk away with a specific, actionable plan for making it happen.

Collaboration 🍌🍌

Make groups work well as you evaluate a series of collaboration strategies and reflect on the tools your students need to build this crucial skill.

Flipped Classroom

Add an important tool to your blended or personalized learning toolbox, as you learn how to effectively flip your classroom and maximize active learning during the time you have with your students.

Flexible Pacing

Explore different models of flexible pacing, evaluate how it benefits students, and plan a flexibly paced lesson, project, or unit.

MASTERY LEVEL

Projects 🍌🍌🍌

Gain the inspiration, templates, and examples needed to develop your own active learning project tailored to the needs of your students. Reflect on the needs and challenges facing your school community, and share the work you've developed to inspire collaboration and growth.

Teacher Leader

Explore what makes professional learning leave an impact, then design and build your own professional learning session tailored to the needs of your educational community. Reflect on the needs and challenges facing your school community, and share the work you've developed to inspire collaboration and growth.
